Account No.
For Service at:

Dear Customer:

Atlantic Energy LLC an Energy Services Company (ESCO), has notified us that you will be purchasing gas directly from them for the above account as of 03/01/2013.

If this is not true, or if any of the information in this letter is incorrect, please call 1-800-930-5003 no later than 3 business days prior to the end of the month, or you will be transferred to the new ESCO.

Starting next month you will be billed on a monthly basis. However, your meter will be read as in the past. If your meter is read every other month, you now will receive an estimated bill based on your gas consumption history in the month between actual meter readings.

National Grid will continue to provide safety services, local pipeline maintenance, meter reading, emergency services and other business costs such as the taxes that we are required by law to collect, as well as the delivery portion of your natural gas bill.

Your ESCO charges will appear as a separate line item on your National Grid bill, or if your ESCO is billing you directly for the gas supply portion, you will receive a separate bill from them.

Your gas supply contract is between you and your ESCO and does not involve National Grid. In the future, if your contract is terminated and you do not choose another ESCO, you will be automatically returned to National Grid for both your gas supply and delivery.

Congratulations! You are now enrolled in our NaturalChoice(sm) program. If you have any questions, please call us at 1-800-930-5003. We look forward to serving you.

Sincerely,

National Grid

AENR
